DIABETIC FOOT BURDEN IN INDIA

- > 10 crore people with Diabetes in India.
- 25 crores will develop diabetes in their lifetime.
- 63 lakh people are currently living with diabetic foot ulcers.
- Multidisciplinary treatment (MDT) is the best approach to treat diabetic foot disease.
- As of 2020, there is very limited access to MDT in India .
- Lack of availability of advanced diabetic foot surgical procedures.

OUR MISSION

UKIDFF was launched in 2021 to :

- Provide free remote MDT advice to any doctor in India on any diabetic foot presentation.
- Provide free MDT treatments through Mega health camps.
- Provide training and support to doctors interested in treating diabetic foot patients.
- Raise awareness on diabetic foot problems and treatments .

FREE REMOTE MDT ADVICE FOR DOCTORS

- A large panel of expert doctors from UK and India.
- 261 case referrals so far, predominantly for surgical advice.
- Majority are diabetic foot infections.
- 95 Charcot feet.

UKIDFF X PEDITEQ

- A Major Milestone for 2024 is our UKIDFF app developed by PEDITEQ.
- The most advanced and user-friendly medical app for clinicians!
- Formal collaboration with Diabetic Foot Society of India (DfSI).

MEGA HEALTH CAMPS

OUR COMMITMENT TO SOCIETY

A mission to bring advanced diabetic foot screening and MDT to the society.

Held at Mogalthur, our first camp had :

- 23 clinicians
- 2000 patients
- 47 bedside procedures
- 11 procedures on admission

OUR COMMITMENT TO SOCIETY

The second camp held in Bhimavaram India had :

- 40 clinicians
- 4000 patients
- Partnered with hospitals
- Apollo hospitals Jubilee Hills, Hyderabad : Led by Dr. Srinivas Seshabattaru.
- Dr. Varma Group of Hospitals, Bhimavaram : Led by Dr. Varma.
- Imperial Hospital, Bhimavaram : Led by Dr. Naresh Rayasam.

OUR COMMITMENT TO SOCIETY

- 110 bedside procedures
- 11 medium surgeries
- 140 pairs of Diabetic footwear provided in collaboration with PEDITEQ
- Adoption of Region and post treatment follow up

YOUR CONTRIBUTION

- **Raise Awareness of Diabetic foot problems among your patients.**
- **Utilise the UKIDFF app to obtain MDT advice from experts.**
- **Participate in our Mega health camps.**

It is this visionary spirit of our founders and their dedication to public welfare and health that has lead to the Inception of this Initiative.

UK-INDIA DIABETIC FOOT FOUNDATION

**Together, we can take meaningful steps toward better health
and brighter futures - with accessible treatment for all.**

Thank you!
